PROJECTS

Farm to Home

05/2026 – 06/2026

- Designed an end-to-end marketplace platform connecting farmers directly with customers.
- Created customer onboarding, authentication, checkout, payment, and order tracking flows.
- Designed farmer onboarding, dashboard, product management, and order management experiences.
- Built reusable components, variants, and interactive prototypes in Figma.
- Applied UX principles to simplify user journeys and improve usability.
- Designed 25+ screens covering customer and farmer workflows across the platform.

Prototype: [Farm to Home]

Case Study: Available on request
